TOOLS	P	F	COMMENTS	APPROACH:	PULL - BALANCED - OPPO
HIT	60	65	Level swing with + bat speed. Keeps bat in the zone a long time. ++ bat control, + situational hitting, + bat to ball skills. Goes with pitch, keeps hands back well on offspeed.. Able to spray balls to all fields. VERY Tough K. Chokes up a few inches on bat. Looking to put balls in the gaps/find holes to utilize speed. 1B/2B hitter. Hits FBs very well.	STANCE: OPEN, SQUARE , CLOSED, TALL, BALANCED , CROUCH, WIDE, LOW HANDS, HIGH HANDS, HANDS AWAY , BAT ON SHOULDER	
RAW PWR	30	40	Some RAW PWR hidden in here, but won't really tap into it often at all with his choked up LD/GB approach of spraying balls around the field	STRIDE: NO STRIDE, BIG LEG KICK , SMALL LEG KICK, TOE TAP, DIVES IN	
GAME PWR	25	30	Sneaky Pull PWR. When he drops the bat head, which doesn't happen often. Chance to add a bit of PWR with a changed approach as he ages/loses some speed.	LOWER: HIPS FIRE, HIPS STIFF, OFF FRONT FOOT, + WEIGHT SHIFT	
PLATE DISC	60	60	Great understanding of the strike zone. Willing to wait for a pitch he can hit hard. Willing to hit w/ 2 strikes. Gets \into great hitters counts	FOOT DOWN: EARLY, ON TIME , LATE	
PITCH REC	65	65	Have yet to see him get fooled. Picks up pitch early out of the hand. Has a plan at the plate & sticks to it. Understands P plan of attack	PHYSICAL DESCRIPTION: Athletic frame, Lacking some physical strength, very strong hands/wrists. Looks to be slightly bigger than the listed weight of 176. Strong legs, No glasses, No known injuries. Similar body styles to Jeff McNeil/Joey Wendle	
FIELD	60	60	Soft hands and quick feet around the 2nd base bag on DPs. Gets rid of the ball quickly. Plays hops well, Put himself in a good position to make plays. Instincts, with a good 1st step. + Footwork		
RANGE	60	60	Moves well to Left, slightly better moving up the middle. Charges ball with authority to cut down hops		
ARM STR	35	40	Good arm action, mechanics. Will drop arm to ¾ slot at times losing some power on throws. Arm strength is lacking, limits him to 2B/LF.	STRENGTHS: Incredible bat control. Short compact stroke. +Bat speed. Great eye at the plate, High baseball IQ, Spark plug, Uses the whole field, Works deep into counts, confident w/ 2 strikes, BB just as often as K, Quick feet/transfer at 2B bag for DPs, helping hide poor ARM STR. Table setter, +Baserunner, + speed. Seems to be in the right position defensively. Hits FB very well. Not fooled by spin. Willing to bunt/move runners.	
ARM ACC	55	55	Most throws are on target to go with his quick release, helps make up for his lack of ARM STR		
RUN	65	65	Picks up speed base to base, quick out of the box, fluid natural runner		
STEAL	60	50	SB ability. Has yet to show it, track record of high # of SB w/ high success rate, SB rates declining past few years.		
BASERUN	65	65	Instinctive base runner. Will take extra bases if given the chance. Good reads off the bat, Runs very well base to base, takes strong aggressive turns around bags	WEAKNESSES: Trouble w/ low & in FB/CH, roll overs 2nd often. Poor arm strength. Not a PWR threat. 2B/LF limited defensively, can become an avg LF with instincts, Reads to the ball, ARM will be challenged often. SBs have been on a steady decline, hasn't attempted yet in 2019 but the speed still plays on basepaths	
ATHLETE	60	60	Athletic, hop in his step, active around the field and on basepaths		

RUN TIMES:	HM to 1st: 4.12 sec	HM to 2nd: 7.87 sec	HM to 3rd: 11.5 sec	SB 2nd: 3.43sec	1st to 3rd: N/A	2nd to HM: N/A

REPORT SUMMATION:	9th season in the KBO, lots of experience. Plays the game hard and with passion. A leadoff hitter who puts a lot of pressure on a defense ready to step in for a playoff caliber team and start at 2b right away. Potential to work in LF with his baseball instincts and speed. Challenges pitchers with every pitch Very tough to strike out, looking for contact but not sacrificing ability to barrel up balls consistently. Will be a productive top of the lineup hitter and provide DEF at 2nd and intangibles to play LF if needed. With teammate Sung-bum Na expected to be posted this offseason, Park should have his chance to be posted after the 2021 KBO Season.
